Our German Courses

Learning German opens doors – whether for studies, career opportunities, or everyday life in Germany. At IIK Deutschland, we offer three different course formats: each course is tailored to different needs, so you can choose the pace and style of learning that suits your goals best.

German Intensive

The perfect choice for those who want to make rapid progress: Our Intensive Course combines daily classes with guided self-study – an ideal preparation for university, professional life, or integration in Germany. You will benefit from regular lessons (on-site or online) and a lively cultural program that helps you use the language in real-life situations.

German Part-Time

Designed for people who want to balance language learning with work or other commitments: The Part-Time Course takes place in the evenings and once a month on Saturdays. In small groups, you build your skills step by step, with time for consolidation and self-study. Interactive methods such as role plays and authentic materials make learning both effective and engaging.

German Flex

Flexible and effective, our Flex Course is designed to help you make steady progress. Starting at any level between A1 and B2, you can study independently while benefiting from teacher support and interactive group sessions. With access to digital learning resources and a structured curriculum, you can continue your learning journey in convenient four-week increments.
